DETAILED ACTION

Claim Rejections - 35 USC § 102/§ 103

Claims 1-7, 10, 12-19, 22, 24 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Laustsen of record for reasons of record.

Laustsen further discloses a range of membranes retention, which would encompass the claimed range (see col. 7, lines 25-30). Accordingly, the claims stand anticipated.

In the alternative, the reference does teach the preferred use of separation membranes that are at least three times greater than the retention membranes (see col. 7, line 28 in particular). It would have been obvious to one having ordinary skill in the art at the time the invention was made to select a variety of membranes from the disclosed list, because such selection based upon its suitability for the intended use, i.e., the materials being treated and separated would have been obvious to one having ordinary skill in the art.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
